F. No. 10 (61)/Env/2024/Pt-1/7803-14

Date- 05/03/25

Subject: Minutes of meeting held 25.02.2025 at 11:00 AM under the chairmanship of Principal Secretary (Environment & Forest), GNCTD, Delhi Secretariat regarding review of compliance to the OM dated 21-08-2024 of MOHUA, GOI as well as other directions / circulars issued time to time, on the off-Take of C&D Waste Recycled Products by Agencies / Departments

Second meeting of the Committee, constituted in pursuance to Order No. F. No. 10 (61)/Env/2024/Pt-1/4395-4403 dated 09-10-2024, was convened on 25.02.2025 at 11:00 AM to review of compliance to the OM dated 21-08-2024 of MOHUA, GOI as well as other directions / circulars issued time to time, on the off-Take of C&D Waste Recycled Products by Agencies / Departments.

The list of participants is at **Annexure – I.**

- I. During the meeting, a presentation was given by Dr. Chetna Anand, Senior Scientific Officer, Department of Environment, Govt. of Delhi, regarding off-take status of C&D Waste Recycled Products by all concerned Departments / Agencies in compliance to the OM dated 21-08-2024 of MOHUA, GOI. Progress w.r.t. Decisions taken in earlier meeting dated 06/11/2024 was discussed & reviewed.
- II. Annual off-take status of C&D Waste Recycled Products by all Government Department / Agencies for the period from 1st April 2024 to 15-02-2025 is about 2,64,807 MT, which is about 16.53 % only as the target for the year 2024-25 for 17 Government Departments / Agencies in Delhi is 1601500 MT.
- III. It was discussed that among all the Departments/ Agencies in Delhi, PWD, I&FC, DSIIDC, MCD, DDA, CPWD, NBCC have the largest Scope for utilization of C&D Waste Recycled Products. Government Departments/ Agencies should share their monthly demand well in advance to C&D Plants to meet demand & supply.
- IV. It was also suggested that to tackle the bigger issue of C&D recycled products offtake, improve C&D processing & capacity utilization of C&D plants operation, Govt. of Delhi may use funds/ grants for purchase of all C&D recycled products offtake for use in construction works, being undertaken by Government Agencies either directly or through Contractors.
- V. To close the loop of C&D waste recycling & for smooth running of the C&D Waste Recycling Plants, maximize by Concerned Government Departments/ Agencies may maximize use of C&D waste recycled products used as in lean concrete, use of CC blocks and Bricks in all boundary and drain construction works etc.
- VI. It was discussed that Virgin Construction material is cheaper than C&D Recycled Products due to the costs involved in Recycling. This has been a roadblock in achieving wider acceptability for use of C&D Waste Recycled Products in Construction. It was suggested that 10% Environment Cess on virgin Construction material may be explored to be imposed to narrow the gap between the costs of Virgin Construction material and C&D Waste Recycled Products and to encourage use of C&D Waste Recycled Products.
- VII. It was discussed that Use of Recycled C&D materials may be incorporated in the Framework for Berm to Berm Road pavement / construction.
- VIII. It was also discussed that during GRAP, restrictions on Vehicle movement impact the collection of C&D waste and supply of C&D waste recycled products resulting in non-operation of C&D waste recycling plants, which may increase the air pollution levels due to more & more accumulation of C&D waste. It was suggested to cover C&D

waste related Processing Facilities & Vehicles under Essential Services & CAQM may be approached for exception of restriction on C&D waste related Processing Facilities & Vehicle movement during GRAP period.

- IX. It was informed that around 5% rejects (about 200 MT) as RDF per day is obtained after processing C&D Waste at C&D Plants in Delhi. However, Waste-to-Energy Plants don't accept this high Calorific Value Waste (RDF) due to transportation costs.
- X. It was informed that Scientific way of disposal of Plastics and other material having High calorific value is Incineration with Flue-Gas Treatment. This makes Waste to Energy plants in Delhi the ideal place for scientific disposal of about 200 TPD RDF portion / rejects obtained after processing C&D Waste at C&D Waste Processing Facilities.
- XI. After detailed discussions with Members, following decisions were taken and actions are to be taken accordingly:
- Plant Operators / Processing Facilities will provide updated Plant wise & Product wise inventory of the major C&D Waste Recycled Products to the concerned Government Departments / Agencies. This should be made available also at the dedicated web portal of plant operator.
 - Plant Operators / Processing Facilities must regularly test products and share Test Reports (Certified for quality by reputed Instituted like CBRI, CRRI, etc. or Recognized Laboratories) with Department of Environment, Govt. of Delhi as well as with all concerned Government Departments / Agencies and also at the dedicated web portal of plant operator
 - In order to increase the processing of the C&D waste and to have harmony in Demand & Supply, all concerned Government Departments / Agencies must assess & submit their product specific requirements including types, quality, sizes, colour etc. in advance to the Plant Operators / Processing Facilities on annual / monthly basis. If required, the products should also be tailor-made to meet the Department's requirements.
 - As also decided in the last meeting, to meet the target set by MOHUA as per OM dated 21-08-2024 for concerned Government Department / Agency, C&D waste recycled products offtake must be mandatorily incorporated in all tender conditions of all Government Departments and Agencies in NCT of Delhi. At least 20% C&D waste recycled product must be used in all Govt. Tenders. Proof of usage of recycled C&D material must be ensured before passing the bills of Government work. Non-compliance should be penalized.
 - DPCC may issue Directions for mandatory usage of Recycled aggregates by RMC suppliers up to M25. It should also be linked with CTO, being issued by DPCC as mandatory condition.
 - All construction projects, being approved by SEIAA / MoEF&CC/ DPCC in Delhi should be mandated for off-take of C&D Waste Recycled Products (at least 20 % of their total works). C&D waste recycled products offtake must be mandatorily incorporated in EC/ CTO conditions issued by SEIAA/ MoEF&CC/ DPCC.
 - As discussed in the last meeting and decided, to prevent air pollution, aggregate of recycled C&D waste may be explored on ROW areas (to be used in smoothening of the road surfaces to prevent road dust). However, safety & related issues may be looked upon for using aggregates on ROW areas.
 - As per C&D Rules 2016, ULB to prepare Policy Document w.r.t Management/ offtake of C&D products. Urban Development Department, GNCTD to take up this with MCD / NDMC/ DCB on priority. Urban Development Department, GNCTD may explore for giving incentives (like Property Tax exemption, Reduction in Building fee, FAR Enhancement etc.) for usage of C&D recycled products as mentioned in C&D Rules 2016.
 - C&D waste Reject generation from C&D processing plant to considers as RDF. MCD to considered purchase of this RDF at the price determined by DERC for Waste to Energy Plant.
 - As decided in an earlier meeting, it was stressed that Awareness Workshops / interactions with Departments / Agencies may be organized for wider

Consultations. Awareness at the level of Engineers / Contractors must be held by both Plant Operators / Processing Facilities as well as by all concerned Government Department / Agency.

- Plant Operators / Processing Facilities will conduct awareness Workshops & arrange visits to C&D waste Processing Facilities to see processing of the C&D Waste and different products. Department of Environment, Govt of Delhi will also conduct a Workshop at Delhi Secretariat with all concerned Government Department / Agency including their Contractors and all Plant Operators / Processing Facilities.
- Those who are not meeting the targets, despite availability of right quality of C&D Waste Recycled Products, Directions may be issued by Environment Department, GNCTD / DPCC under EP Act / Jan Vishwas Act, Air Act and penalties may be imposed.

(Dr. Chetna Anand)

Sr. Scientific Officer (Environment)

To,

1. Chairman, New Delhi Municipal Council.
2. Pr. Secretary, PWD, Govt. of NCT of Delhi
3. Additional Commissioner, Municipal Corporation Delhi
4. Special Secretary, UP Department, GNCTD
5. CEO, Delhi Contentment Board.
6. Member Secretary, DPCC
7. Dr. Anil Kumar Former Director Environment, GNCTD
8. Sh. Pradeep Kumar Khandelwal Retd Chief Engineer, MCD.
9. Sh. Naresh Pal Gupta, M/s Everenviro Resources Management (P) Ltd. (operator of Burari, Shastri Park, Rani Khara and Mundka Plants)
10. Sh. Manoj Saxena, M/s Rise Eleven Delhi Waste Management Co. (operator of Bakkarwala Plant)

Copy for kind information to:

1. Sh. D. K. Singh, Addl Director, DPCC
2. PPS to Principal Secretary (Environment), GNCTD.

(Dr. Chetna Anand)
